2.5. The online equipment and platform provided a good learning environment.

76.2% strongly agree that equipment and the platform provided a good learning environment, 19% agrr and 4.8% are neutral.

The online equipment and platform provided a good learning environment

Strongly Agree	16
Agree	4
Neutral	1

Recommendations and Conclusions

All of the participated teachers stated that they would recommend this material to others. They left the below list of comments:

1. *The material completely satisfied my needs, it was informative and the way of presentation could be characterized as original.*
2. *its perfect!!!!*
3. *Good enough. More clarifications perhaps.*
4. *Technically very interesting approach.*
5. *Congratulations! Very good work! I would just like to note that in hangouts 1-4 in the preparation stage the letters are not easily discernible. (It may be my computer's fault).*
6. *In general, the material was short, concise, apt and perfectly understandable. Possibly, some examples in relation to the application of the concepts in practice by the trainees helped in the theory-practice correlation.*
